One of America's leading biochemists in skin care has succeeded in creating a revolutionary, all-natural method to diminish the visible signs of aging. The result of her beauty breakthrough is called Botopical, a topical anti-aging system that gives dramatic results after just one application. Using this breakthrough formula, you can temporarily diminish the appearance of wrinkles with only one application of the miracle Botopical system...without the ordeal of plastic surgery or painful, expensive injections!

What is Botopical's Secret?

Botopical relies on botanical extracts that are carried by a cutting-edge, proprietary delivery system based on two almost magical amino acid sequences. The first relaxes the facial lines and wrinkles to provide beautiful, clear and youthful skin, while the other rebuilds collagen to help plump up the skin. The results of Botopical are miraculous without the pain and expense of dermatological injections.

Developed by Most Sought After Beauty Experts in the World

Botopical was originally developed for one of the most sought after beauty experts in the world, Richard Dalton. After years of perfecting the look of some of the 20th century's most beautiful women, including Princess Diana, Richard wanted a product to give his demanding clientele the radiant, youthful look they wanted. So he turned to his friend Tammy Ha, who is

responsible for creating some of the most exclusive and expensive skincare lines in the world. After rigorous testing and tweaking, the product they developed...Botopical...is being called by many users the best anti-aging solution they've ever tried.

Look up to 15 Years Younger in 20 Minutes

Botopical is safe and gentle enough to use every day. Simply apply the Intensive Treatment Pads under each eye for 20 minutes. Results are often seen after only one treatment.

Alternative to Expensive Injections and Dermabrasion?

Botopical has instant and long-term results with continued use, without the expense of injections, dermabrasions and facial peels. In fact, by using Botopical regularly, you will see your lines and wrinkles appear to diminish before your eyes. In addition, Botopical costs a fraction of these other, more invasive techniques.

Up to 68% Reduction in Wrinkles

Botopical's patent-pending blend of ingredients is so effective, on average, users experience up to a 68% reduction in the appearance of deep lines and wrinkles over time with continued use. It also helps diminish the puffiness around the eyes.
